## Advancing Women's Health in our Community

---

Breast cancer remains the most commonly diagnosed cancer in women, accounting for one in four cancer cases. While alarming, this type of cancer has one of the highest survival rates within the province. Receiving an early diagnosis and having access to high quality care is integral to this.

The Michèle S. Darling Women's Imaging and Assessment Centre at Trillium Health Partners plays an integral role in rapidly diagnosing and treating our community of breast cancer patients, offering a seamless, integrated and coordinated care environment. An on-site radiologist is available to read mammograms and ultrasounds, perform biopsies and provide timely consultation with breast surgeons in the Breast Diagnostic Assessment Program meaning plans for treatment are made quickly, in situations where time is of the essence.

By participating in Women with Drive, you are playing a crucial role in enabling us to continue providing timely access to these services throughout the ongoing COVID-19 pandemic, an unprecedented time in our history that has seen health care services disrupted and forced to adapt.

All proceeds raised from this year's 2022 tournament will support the Michèle S. Darling Centre at Credit Valley Hospital, and enable us to continue upgrading our technology, refine our processes to increase efficiencies and ultimately, ensure we continue providing the consistent, quality care we are known for.

Despite the challenges posed by the ongoing pandemic, the Michèle S. Darling Women's Imaging and Assessment Centre still ran operations as normal, pivoting to offer virtual care where applicable. The Centre is back to pre-COVID volumes, seeing approximately 300 patients per week.

Your support makes these kind of wins possible. At Women with Drive, you are doing so much more than simply playing golf. You are ensuring Trillium Health Partners can continue providing patient access to the most innovative, cutting-edge equipment and care – for generations to come.
